

- UP TO 20 CAMERAS • FULLY MANAGED

Lend'L Cloud 20

Installed on-site, the bridge connects to your cameras, records video locally, and securely synchronises footage and metadata to the Lend'L cloud — a robust, secure appliance built to transmit high-resolution video over the internet.

AT A GLANCE

Up to 20 cameras @ 4 MP

Small form factor for sites with no server rack — wall or shelf mounted.

Encrypted end to end

Complete Privacy Encryption keeps video protected in transit and at rest.

No open ports

No inbound connections to the internet — no router or firewall changes.

Fully cloud managed

All firmware and software is managed and updated by Lend'L, automatically.

Apps + browser access

Live and recorded video on native iOS, Android and any modern browser.

Rugged & self-aware

All-aluminium enclosure, broad temperature range, on-device status display.

Lend'L Cloud 20

Lend'L Cloud 20	
BEST VALUE	
Max cameras*	Up to 20 @ 4 MP
Max analytic count*	5
Video buffer	2 days on-premises
